- **Change** text headline (Starting with thousands....) to “Businesses use SimpleBit across multiple industries”
- **Re classify** the chart names
- 1. **Keep** By Industry
- 2. **Replace** type business to "Business Type"
- **Note:** It should show what merchants we onboarded, we do not want to come across as customer proof or market dominance, this should purely show a percentage of what merchants use us based of industry

STARTER
Get a head start.

If you're just getting started, or still in the early phase, you have plenty to worry about. Establishing an online presence, choosing the right products to sell, and sorting out accept payments. It's hard. It's technical. It's overwhelming. It doesn't have to be.

Our mission is to remove the headaches so you can focus on what you do best.
